

# Fire and Rescue Training Institute

PRESENTS:

## Aircraft Rescue Fire Fighting Techniques for Emergency Responders

**Hours:** 8

**Prerequisites:** None

**Min/Max Students:** 15/30

**Description:**

This course will give emergency responders basic knowledge of aircraft firefighting principles. Any personnel who may respond to an aircraft incident (on or off an airport site) will benefit from this course. The main focus will be on the strategy and tactics of general, commercial, and military aircraft incidents. Some topics covered will include aircraft and airport familiarization, fire-fighting and rescue tactics, hazardous materials, and National Transportation Safety Board (NTSB) guidelines.

**Request This Class for Training:**

This course may be requested and hosted by an individual fire department or a group of fire departments for delivery anywhere in Missouri at any time of the year. Requests can be made by contacting the MU FRTI office. You can download a request form online @ <http://www.mufrti.org/download/student.shtml>
