

Fire and Rescue Training Institute

PRESENTS:

Chief Officer: Leadership

Hours: 32

Prerequisites: None

Min/Max Students: 15/25

ACE Credit Recommendation:

2 semester hours in the lower division baccalaureate/associate degree category

Description:

This active learning course is designed to help define and associate the concepts, theories and history of leadership to individual and organizational leadership issues. In addition, students will develop a personal leadership development plan and apply leadership practices. This course will also identify three phases of leading change and how to develop an organizational plan of action based on these phases as well as analyze a contemporary and organizational personal leadership issue and formulate a plan to effectively address the issue.

Course Goal:

The goal of the leadership class is to provide an educational experience that helps students recognize what effective leadership is, understand the differences between leadership styles, and develop the skills required to select the most appropriate style for them and the situation.

Request This Class for Training:

This course may be requested and hosted by an individual fire department or a group of fire departments for delivery anywhere in Missouri at any time of the year. Requests can be made by contacting the MU FRTI office. You can download a request form online @ <http://www.mufri.org/download/student.shtml>

Course Objective:

Upon completion of this course, the students will be able to:

1. Define, and associate the concepts, theories, and history of leadership to individual and organizational leadership issues;
2. Construct a personal leadership development plan;
3. Demonstrate applied leadership practices;
4. Identify the three phases of leading change and develop an organizational change plan of action based on the three phases;
5. Analyze a contemporary organizational or personal leadership issue and formulate a plan to effectively address the issue; and
6. Demonstrate an ability to communicate effectively using a variety of communication formats.
