

# Fire and Rescue Training Institute

PRESENTS:

## I-800 National Response Plan: An Introduction

**Hours:** 4

**Prerequisites:** I-700

**Min/Max Students:** 15/50

### Description:

The National Response Plan, or NRP, specifies how the resources of the Federal Government will work in concert with State, local, and tribal governments and the private sector to respond to Incidents of National Significance. The NRP is predicated on the National Incident Management System, or NIMS. This course introduces you to the NRP, including the concept of operations upon which the plan is built, roles and responsibilities of the key players, and the organizational structures used to manage these resources. The NRP provides a framework to ensure that we can all work together when our Nation is threatened. This course meets training requirements to become NIMS compliant.

### Course Goal:

Upon completion of this course, the students will be able to:

1. The purpose of the National Response Framework.
2. The response doctrine established by the National Response Framework.
3. The roles and responsibilities of entities as specified in the National Response Framework.
4. The actions that support national response.
5. The response organizations used for multi-agency coordination.
6. How planning relates to national preparedness.

### Request This Class for Training:

This course may be requested and hosted by an individual fire department or a group of fire departments for delivery anywhere in Missouri at any time of the year. Requests can be made by contacting the MU FRTI office. You can download a request form online @ <http://www.mufrti.org/download/student.shtml>
