

Fire and Rescue Training Institute

PRESENTS:

Chief Officer: Operations

Hours: 80

Prerequisites: NIMS: ICS for the Fire Service or I-200

Min/Max Students: 15/25

ACE Credit Recommendation:

3 semester hours in the lower division baccalaureate/associate degree category

Description:

This course will help chief officers make strategic decisions to effectively manage an emergency incident. Students will learn how to develop an incident action plan (IAP) for a complex incident and how to preplan for target hazards. Other topics covered will include incident command decision making, IAPs, Incident Command System (ICS) for emergency medical systems' (EMS), health and safety officers, laws and regulations, incident safety officer and risk management, fire cause determination, and simulations for nursing homes, bulk storage, facility/tank farms, structural collapse, terrorism, enclosed malls, public assembly/mass casualties, highrises, dormitories, grain elevators, and penal institutions.

Course Goal:

The goal of the Operations course is to provide an educational experience that will help the newly promoted chief officer or battalion chief to perform competently at an emergency incident. Although emergencies have been reduced at varying rates, they are still the most resource intensive and dangerous component of the emergency services today.

Request This Class for Training:

This course may be requested and hosted by an individual fire department or a group of fire departments for delivery anywhere in Missouri at any time of the year. Requests can be made by contacting the MU FRTI office. You can download a request form online @ <http://www.mufrti.org/download/student.shtml>

Course Objective:

Upon completion of this course, the students will be able to:

1. Make strategic decisions to effectively manage an emergency incident;
2. Develop an Incident Action Plan (IAP) for a complex incident; and
3. Preplan for target hazards.
